

Day 07 – Microsoft Entra ID Enterprise Applications

Objective

Learn how to add an Enterprise Application, assign users, and explore Single Sign-On (SSO) settings in Microsoft Entra ID.

Skills You'll Learn

- Enterprise Applications
- Single Sign-On (SSO)
- User Assignment
- Application Access Management
- Identity and Access Management (IAM)

Step 1 – Open Enterprise Applications

1. Sign in to the **Microsoft Entra admin center**.
2. Go to:

Identity

Applications

Enterprise applications

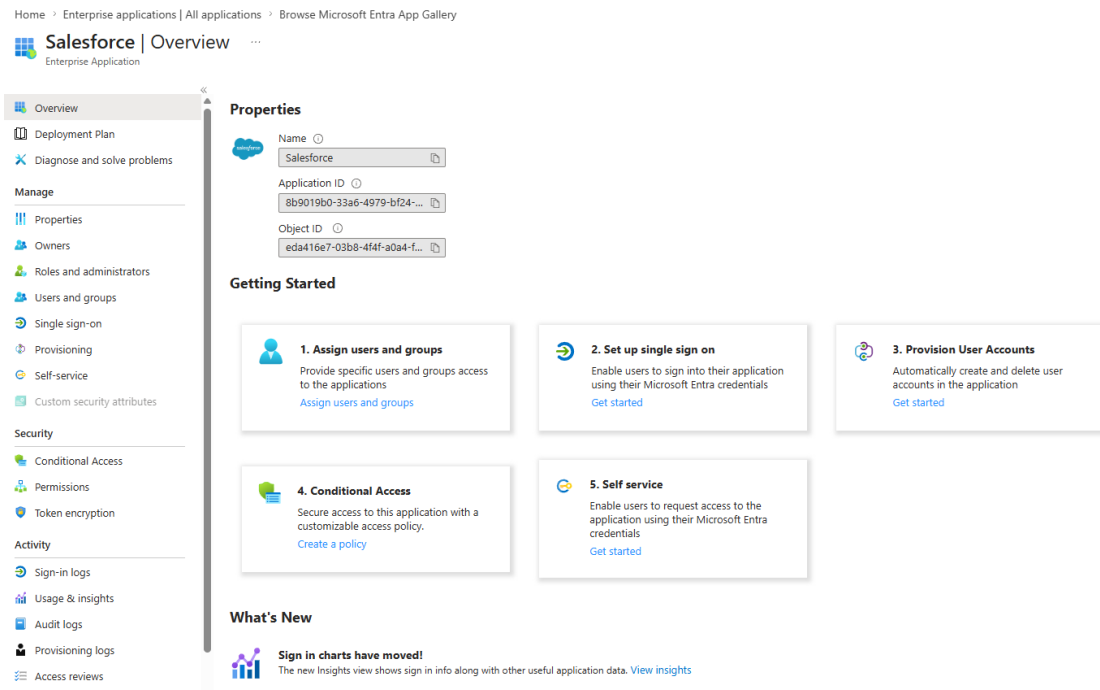

Or search for **Enterprise applications** using the search bar.

Step 2 – Add an Enterprise Application

1. Click **+ New application**.
2. Select **Browse Microsoft Entra Gallery**.
3. Search for one of these applications:
 - a. Salesforce
 - b. Box
 - c. Dropbox Business
 - d. ServiceNow
 - e. Slack
4. Select the application.
5. Click **Create**.

Screenshot 1

- Enterprise Application Overview

Step 3 – Explore the Application

After the application is created, open it and review the following sections:

- Overview

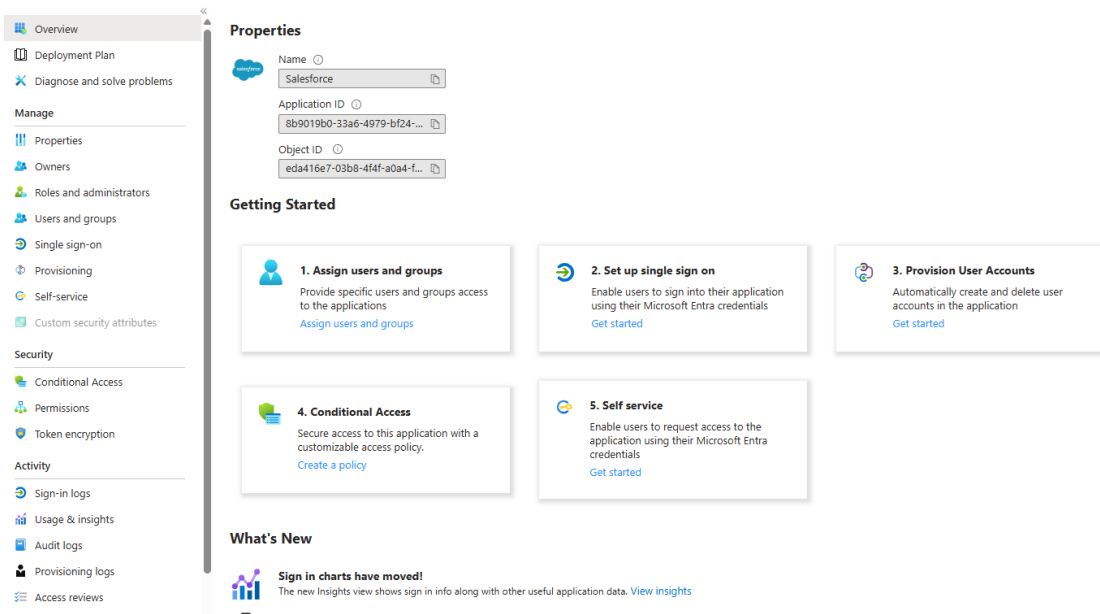

- Users and groups
- Single sign-on
- Properties
- Provisioning
- Permissions
- Owners

Screenshot 2

- Application Overview

Home > Enterprise applications | All applications > Browse Microsoft Entra App Gallery

Enterprise Application

Overview

Deployment Plan

Diagnose and solve problems

Manage

- Properties
- Owners
- Roles and administrators
- Users and groups
- Single sign-on
- Provisioning
- Self-service
- Custom security attributes

Security

- Conditional Access
- Permissions
- Token encryption

Activity

- Sign-in logs
- Usage & insights
- Audit logs
- Provisioning logs
- Access reviews

Properties

Name  Salesforce 

Application ID  8b9019b0-33a6-4979-bf24-... 

Object ID  eda416e7-03b8-4f4f-a0a4-f... 

Getting Started

- 1. Assign users and groups**
Provide specific users and groups access to the applications
[Assign users and groups](#)
- 2. Set up single sign on**
Enable users to sign into their application using their Microsoft Entra credentials
[Get started](#)
- 3. Provision User Accounts**
Automatically create and delete user accounts in the application
[Get started](#)
- 4. Conditional Access**
Secure access to this application with a customizable access policy.
[Create a policy](#)
- 5. Self service**
Enable users to request access to the application using their Microsoft Entra credentials
[Get started](#)

What's New

 **Sign in charts have moved!**
The new Insights view shows sign in info along with other useful application data. [View insights](#)

Step 4 – Assign a User

1. Select **Users and groups**.
2. Click + **Add user/group**.
3. Select your test user (for example, **Alex Brown**).
4. Click **Assign**.

Screenshot 3

- User Assignment

Home > Enterprise applications | All applications > Browse Microsoft Entra App

Add Assignment

Default Directory

Groups are not available for assignment due to your Active Directory plan level. You can assign individual users instead.

Users

 Alex Brown
alex.brown@farhanmuntasiroolook.onmi...

Assign

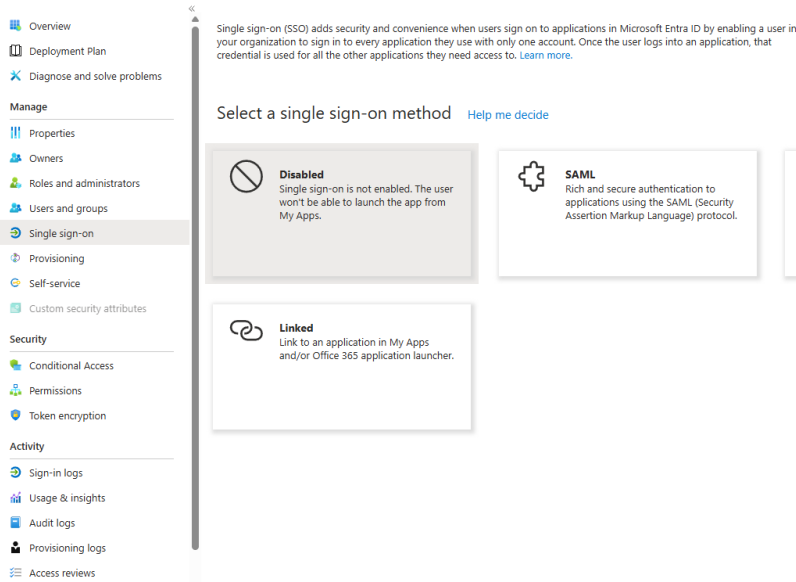

Select

Step 5 – Review Single Sign-On

1. Open **Single sign-on**.
2. Review the available sign-in methods (for example, SAML or another supported method depending on the application).
3. Do **not** configure SSO yet—just familiarize yourself with the options.

Screenshot 4

- Single Sign-On Page

Step 6 – Review Application Properties

Open **Properties** and review settings such as:

- Enabled for users to sign in
- Assignment required
- Visibility
- Application name
