

# Day 22 – Create and Assign an Application Owner

## Objective

Learn how to assign an owner to an App Registration. Application owners can manage the application without needing Global Administrator permissions.

## Step 1 – Open App Registration

Go to:

Microsoft Entra admin center

→ Identity

→ Applications

→ App registrations

→ IAM-Lab-App

### Screenshot 1

- App Registration Overview

Home > App registrations > IAM-Lab-App | Authentication (Preview) > App registrations > IAM-Lab-App | API permissions > App registrations

Azure Active Directory Authentication Library (ADAL) and Azure AD Graph no longer receive new feature updates. We continue to provide technical support and security updates. Applications should be upgraded to Microsoft Authentication Library (MSAL) and Microsoft Graph. [Learn more](#)

Get Started

Documentation

Build your application with the Microsoft identity platform

The Microsoft identity platform is an authentication service, open-source libraries, and application management tools. You can create modern, standards-based authentication solutions, access and protect APIs, and add sign-in for your users and customers. [Learn more](#)

## Step 2 – Open Owners

In the left menu, click:

Manage

→ Owners

You will see the current list of owners (it may be empty).

New support request

The users listed here can view and edit this application registration. Additionally, any user (may not be listed here) with administrative privileges to manage any application (e.g., Global Administrator, Cloud App Administrator etc.) can view and edit the application registrations. Currently, only individual users are supported as owners of applications. Assignment of groups as owners is not yet supported. If the user setting "Restrict access to Microsoft Entra ID administration portal" is set to Yes, non-admin users will not be able to use the Azure portal to manage the applications they own. [Learn more](#)

No owners have been assigned to this application.

Add owners

## Step 3 – Add an Owner

1. Click **+ Add owners**
2. Search for one of your test users (for example, **Alex Brown**) or your administrator account.
3. Select the user.
4. Click **Select**.

### Screenshot 3

- Add owners window

## Step 4 – Verify the Assignment

Return to the **Owners** page and verify the user appears in the list.

### Screenshot 4
