

Day 13 – Microsoft Entra ID Named Locations

Objective

Learn how Microsoft Entra ID uses **Named Locations** to identify trusted networks and how they are used with Conditional Access.

Note: You may find that creating Named Locations requires a Microsoft Entra ID Premium P1 license. If so, we'll document the licensing limitation in your portfolio.

Skills You'll Learn

- Named Locations
- Trusted IP Addresses
- Country-Based Locations
- Conditional Access Concepts
- Identity Security

Step 1 – Open Named Locations

Go to:

Microsoft Entra admin center

→ Protection

→ Conditional Access

→ Named locations

If you don't see it, use the search bar and search for:

Named locations

Home

Named locations ...

+ Countries location + IP ranges location  Configure multifactor authentication trusted IPs  Refresh |  Preview features |  Got feedback?

Named locations are used by Microsoft Entra security reports to reduce false positives and by Microsoft Entra Conditional Access policies. Named Locations that are marked Trusted or configured in Conditional Access Policies cannot be deleted. [Learn more](#)

All Named Locations Deleted Named Locations

Location type: All types Trusted type: All types  Reset filters

0 named locations found

Name	Location type	Trusted	Conditional Access policies	Creation date	Modified date
No results.					

Step 2 – Create a Named Location

Click:

+ Countries location

Configure:

Setting	Value
Name	IAM-Lab-US
Countries	United States
Include unknown areas	No

Click **Create**.

No results.					

Step 3 – Review the Named Location

Open **IAM-Lab-US**.

Review:

- Name
- Countries
- Trusted status (if applicable)
