

Day 18 – Microsoft Entra ID Service Principals

Objective

Understand what a Service Principal is, how it's created, and how it relates to an App Registration and Enterprise Application.

Skills You'll Learn

- Service Principals
- App Registrations
- Enterprise Applications
- Application Identity
- Microsoft Entra Administration

Step 1 – Open Enterprise Applications

Go to:

Microsoft Entra admin center

→ Identity

→ Applications

→ Enterprise applications

Search for:

IAM-Lab-App

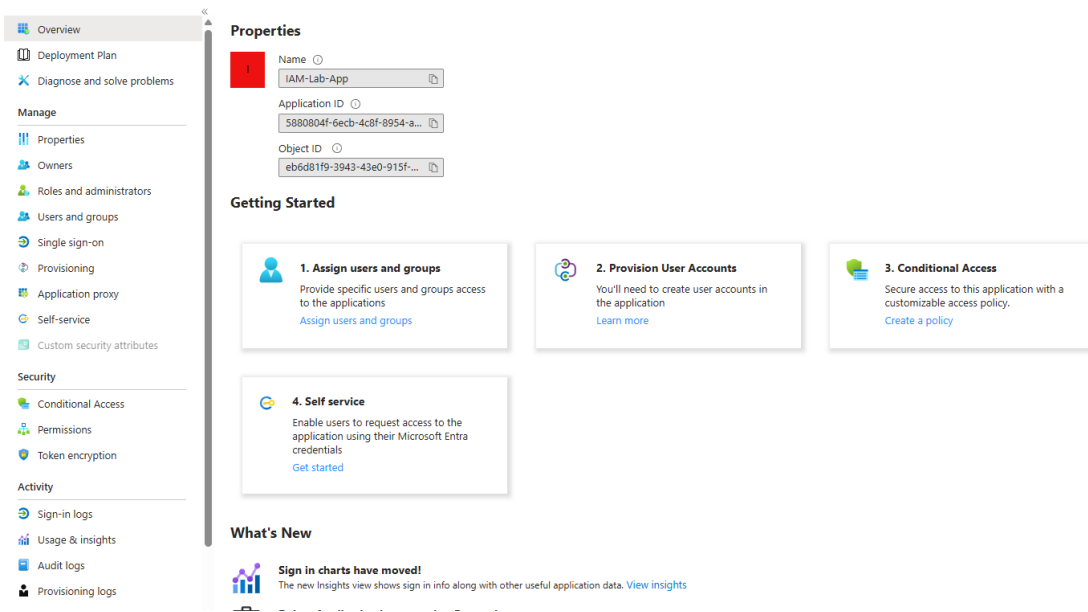

Click **IAM-Lab-App**.

 **Screenshot 1**

- IAM-Lab-App Enterprise Application

Home > IAM-Lab-App | API permissions > Enterprise applications | All applications

 **IAM-Lab-App** | Overview ...
Enterprise Application

The screenshot shows the 'Overview' page for the 'IAM-Lab-App' Enterprise Application. On the left is a navigation pane with sections: Overview, Deployment Plan, Diagnose and solve problems, Manage (Properties, Owners, Roles and administrators, Users and groups, Single sign-on, Provisioning, Application proxy, Self-service, Custom security attributes), Security (Conditional Access, Permissions, Token encryption), and Activity (Sign-in logs, Usage & insights, Audit logs, Provisioning logs). The main content area is titled 'Properties' and shows the application's Name ('IAM-Lab-App'), Application ID ('5880804f-6ecb-4cbf-8954-a...'), and Object ID ('eb6d81f9-3943-43e0-915f-...'). Below this is the 'Getting Started' section with four tasks: 1. Assign users and groups, 2. Provision User Accounts, 3. Conditional Access, and 4. Self service. At the bottom is a 'What's New' section with a message about sign-in charts.

Step 2 – Review Properties

Select **Properties**.

Review:

- Name
- Application ID (Client ID)
- Object ID
- Enabled for users to sign in
- Assignment required

Step 3 – Compare with App Registration

Open:

Identity

→ Applications

→ App registrations

→ IAM-Lab-App

Compare:

App Registration

Defines the application

Contains app configuration

Created once

Enterprise Application (Service Principal)

Represents the application in your tenant

Contains tenant-specific settings

Created automatically when the app is added to the tenant

Properties

Name: IAM-Lab-App

Application ID: 5880804f-6ecb-4c8f-8954-a...

Object ID: eb6d81f9-3943-43e0-915f-...

Getting Started

- 1. Assign users and groups**
Provide specific users and groups access to the applications.
[Assign users and groups](#)
- 2. Provision User Accounts**
You'll need to create user accounts in the application.
[Learn more](#)
- 3. Conditional Access**
Secure access to this application with a customizable access policy.
[Create a policy](#)
- 4. Self service**
Enable users to request access to the application using their Microsoft Entra credentials.
[Get started](#)

What's New

Sign in charts have moved!
The new Insights view shows sign in info along with other useful application data. [View insights](#)

Delete Application has moved to Properties
You can now delete your application from the Properties pane. [View properties](#)

Step 4 – Record the IDs

Note these values:

- Application (Client) ID
- Object ID (App Registration)
- Object ID (Enterprise Application)

This helps you understand that different Microsoft Entra objects have different identifiers.
