

# Day 3 – User Lifecycle Management (Create, Disable, Delete, Restore)

## Objective

Learn how IAM administrators manage the lifecycle of user accounts from creation through restoration.

### Skills you'll practice:

- Create a user
- Disable an account
- Re-enable an account
- Delete a user
- Restore a deleted user
- Understand the 30-day recovery period

## Lab 1 – Create a New User (15 minutes)

Go to:

**Microsoft Entra admin center → Users → New user**

Create:

| Field        | Value                     |
|--------------|---------------------------|
| Display Name | Alex Brown                |
| Username     | alex.brown                |
| Password     | Auto-generate(Socu487685) |

Save the temporary password.

Take a screenshot of the **Users** page after Alex is created.

Home > Roles and administrators | All roles > Helpdesk Administrator | Assignments > Users > Roles and administrators | All roles > Helpdesk Administrator | Assignments > Roles and administrators | All roles > Helpdesk Administrator | Assignments

| <input type="checkbox"/> |  John Smith      | john.smith@farha...   | Member    | No       | No                | farhanmuntasiroutlook.onmicro |              |               |
| <input type="checkbox"/> |  Mike Davis      | mike.davis@farha...   | Member    | No       | No                | farhanmuntasiroutlook.onmicro |              |               |
| <input type="checkbox"/> |  Sarah Johnson   | sarah.johnson@fa...   | Member    | No       | No                | farhanmuntasiroutlook.onmicro |              |               |

## Lab 2 – Disable a User (15 minutes)

1. Go to **Users**.
2. Select **Alex Brown**.
3. Click **Properties**.
4. Set **Account enabled** to **No**.
5. Save.

### Observe

- Alex still exists.
- Alex cannot sign in.
- Group memberships remain intact.

**Question:** Why disable an account instead of deleting it immediately?

*Think about situations such as an employee on extended leave or during an HR investigation.*
